See my Projects:

Here are my software projects from the last few years. I've been working on refining my skills in certain areas and diversifying my skills overall. I used my limited web development knowledge to build a simple portfolio website which hosts projects ranging from simulators built in C++ to apps built with Flutter and Swift. There is also a game built in C# by a team I was a part of.

PROFILE

Currently pursuing a Bachelor of Science in Software Engineering at Brigham Young University – Idaho, I am an aspiring Software Engineer with a strong passion for technology, problem-solving, and lifelong learning. I am eager to secure a position where I can utilize my technical expertise, leadership experience, and unwavering dedication to contribute to impactful software development initiatives.

EXPERIENCE

Technician Assistant, Master Butler Inc.; Monroe, WA — 2024-2024

Installed Christmas lights, cleaned gutters, roofs, and dryer vents for residential clients. Maintained high-quality work in a fast-paced, seasonal environment.

Full-time Missionary, The Church of Jesus Christ of Latter-day Saints; Montevideo, Uruguay — 2022-2024

Helped others come unto Christ and gain necessary traction and drive to change their lives. Led other missionaries in their efforts and maintained calm during stressful situations.

Product Photographer, Joes Racing Products; Everett, WA — 2020-2022

Managed the online catalog, ensuring accurate product descriptions and up-to-date pricing. Gained expertise in product photography, editing images using Adobe Photoshop, and uploading assets to the website. Utilized SEO strategies to optimize product listings, increasing website visibility and customer engagement.

Person-in-Charge, Safeway, Inc.; Monroe, WA — 2015-2020

Performed multiple roles in the retail environment, ranging from cashier duties to managing stock and organizing inventory. Demonstrated leadership in managing shifts, training new employees, and overseeing store operations during busy periods. Enhanced customer satisfaction through attentive service and problem-solving in a fast-paced, team-oriented setting.
